

Settings(199)

How do I reset the mother board of JB-199 after changing battery or after it has reloaded default settings?

As the JB-199 is booting, press DELETE to enter into CMOS Setup Utility. Make the following changes.

- Standard CMOS Features
 - Drive A [None]
- Advanced BIOS Features
 - First Boot Device [USB-CDROM]
- Integrated Peripherals
 - AC97 Audio [Disabled]
- PC Health Status
 - CPU Smart Fan Control [Disabled]

You are done. Please go to Save & Exit Setup on the right side and press Enter, y, Enter to return to boot up.
