

Content of Hard Drive(99)

How do you rip the music off of the jb-99 and put it into pc format?

There are two methods:

1. JB Manager (Slower/Less Technical)
 - Follow the instructions located here:
http://cavsusa.com/product/H_player/jb99.htm#upgrade
2. IDE Transfer (Faster/More Technical)
 - Follow the instructions located here:
http://cavsusa.com/product/H_player/jb99.htm#IDE%20Transfer%20Instruction
 - FOR DOS BOOT DISKETTE USE:
 - <http://www.allbootdisks.com/download/dos.html>
 - click Automatic Boot Disk
 - and Download Dos6.22.exe

Note: Songs might be encrypted and might not be usable by any PC software. The only way to find out is by transferring one song and testing it. If no graphics show up then it will infact be encrypted.
