

Functionality(199)

How hard is it to upgrade JB-199 II to dual screen?

The upgrade from single screen to dual screen for JB-199 II is quite simple and it takes about 10 minutes.

Below are the steps necessary to upgrade the player:

1. Remove the top cover:

2. Replace the green PCI card with the new blue PCI card (one screw and four cables).

3. Put the top cover back on.

4. Connect the included USB flash drive into the back of JB-199.

5. Go to menu/download(program upgrade) and press the right arrow.

6. When download completes press ALT+F4 in your keyboard.

7. Open JBConfig.exe found on the desktop.

8. Under the general tab, switch the display mode to window.

9. Restart the player:

All dual screen upgrade kits include a illustrated installation manual which explains the process in much greater detail.
