

Orders

How do I receive a software that I have purchased from your site?

Software are all downloads only. We do not mail out a disc.

The link for the download would appear right after purchase. Also, there should be two emails sent to your email address. One will only be your purchase order and the second would be the download link(all the way at the bottom of the email).

If you did not receive the email or for any were not able to download the software in time please email us at **sales@cavsusa.net** with the following information...

Purchasing Email:

Purchaser Name:

Purchaser Zipcode:

With this information we will be able to find, confirm, and email you a new download link.

Unique solution ID: #1068
