

# Operation instructions

## How do I load SCDG discs?

Now you can transfer songs from SCDG discs and put onto JB-199 and play those songs from the HD. No more inserting discs and waiting for the disc to load. Just use Disc Caputre option as using a CDG disc and transfer songs from SCDG disc to JB199's HD.  
Go to JB-199's website and download the newest firmware for upgrade.
