USB/Hard drive(DVD)

How do I format my hard drive to FAT32?

For the hard drive you have, please go to the website of the manufacturer, such as Seagate, Western Digital, Iomega, etc. Using the search function in the website, look for FAT32. Download the FAT32 formatting program from the website. Follow the instruction given in the website or in the downloaded program to format your hard drive to FAT32 format.
