

# USB/Hard drive(DVD)

## How can i create a INX menu, Address.inx and English.inx?

You may follow the instructions located here: [How do I manually convert my hard drive to CAVS&#039; newer structure?](#) starting at step 4. If your folder/hard drive doesn't look like the figure shown simply go through step 1-3 on that same page.

**Note:** Make sure that your juke.txt contains all songs from 00001-your last song.
