

IPS-11G Karaoke Station

Why am I getting no sound from the IPS-11G?

If you are unable to hear audio through the speakers or Television you have connected your IPS-11G to, try the following:

Raise the players audio volume.

Check if mute is enabled.

Confirm that the A/V OUT cable connection to the TV or A/V Receiver is connected properly.

If none of the above options help, try contacting your dealer or CAVS customer service for repair.
