

PlayCDG SP

How do I get back the program screen or lyric screen that disappeared from the monitor?

Here is a program that can help. Download the following program:

[EditScr.zip](#) Unzip the attached EditScr.zip file into your PC and you will find EditScr.exe program file.

1. Close the PlayCDG SP program
2. Run the EditScr.exe program
3. Check the PlayCDG SP program
4. Press the "Default" button
5. Press the "OK" button to close the EditScr program
6. Start the PlayCDG SP program

You should have the program screen and the lyric screen on their original positions.
